Subject: Re: You Can Help Fix the DMV!

Dear Mr. O'Dea,

I am not in favor of privatizing DMV's functions beyond what is outsourced now. I recall cut backs in staff and reduced office hours several years ago. Our DMV employees seem well trained, well intended and courteous but there are not enough of them, the local office hours have been cut and their on-line services are not functioning as they should. Private organizations will and do impose a service charge for the convenience of extending services to members only. Other states have efficient DMV services and so can we by providing resources that meet the needs of the customers. Cutbacks in staff compromise quality of services.

This Wednesday, March 16, a public hearing will be held on a proposal which would help DMV run more efficiently by allowing the state to expand the types of services that can be performed by private contractors — such as AAA. Currently, residents can obtain limited license services at AAA but there are many other services such as CDL licensing or title transactions that could be done. States across the nation provide efficient services and we should do the same.

This is an opportunity to reduce frustration at DMV branches, allow people to get things done more quickly and relieve stress levels for DMV employees and customers.
